Follow the Rules of Disposing Your Wastes

① Put wastes into some bags to hold with one hand.		Please do not pack waste too much in one bag. It makes difficult for those who collect wastes to load.
② Tie up your waste bag tightly.		Make sure the waste bag tightly tied not to litter.
③ Kitchen garbage should be drained excess liquid before disposing.		Excess liquid not only makes garbage heavy, but disturbs incineration. Drain excess liquid from kitchen garbage before disposing.
④ Wrap dangerous items in a paper and indicate "KIKEN(DANGER)".		Wrap sharp objects, such as glass, broken ceramics, razor blade, knife, etc. in thick paper, and write clearly "KIKEN(DANGER)" on the bag.
⑤ When you dispose poisonous items, indicate "YUGAI(POISON)".		For poisonous items such as fluorescent lamp, mirror, thermometer, dry cell battery, write clearly "YUGAI(POISON)" on the bag before disposing.
⑥ Empty the content of spray can before disposing.		Be sure to remove any remaining gas completely before dispose spray cans.
⑦ Take out large-sized waste on the scheduled collection day.		For the collection of all large-sized wastes, you need to make a reservation by telephone or at the city office.
⑧ Separate your wastes by category		Sort out items properly according to the waste categories. City does not collect wastes which are not sorted out.
⑨ Take out all the wastes on the specified days.		Wastes put out at the night before may be set fire and littered by crows and cats. Take out them by 8:00 am on the collection day.
⑩ Follow the rules set for the specified place and day.		Breaking the rule troubles a neighborhood around the collection site. Please follow the rule of disposing waste.

< No Collection Day >

City does not collect wastes on National holidays, Substitute holidays, Year-end and New-year holidays(December 31st to January 3rd), and Bon(August 15th). Ask the replacement day for these holidays.
